# WHAT YOU SHOULD KNOW When Buying Insurance Cover For Your Property

#### Insured Value/Sum Insured

Ensure your property is adequately insured at all times, and take into account the renovations and enhancements made to your property.

You should also decide on the basis of compensation for loss/damage to your property, whether it is on indemnity or reinstatement basis, and the sum insured shall reflect the choice. For reinstatement basis, sum insured should cover the cost of rebuilding your property in the event of loss/damage. You may need to seek the advice of a professional property valuer to know the estimated value of your property.

If your property is under financing and insured by the financier, you should make sure that the property is adequately insured. Usually, the coverage arranged by your financier will be for the amount of loan taken. You may therefore, want to take up additional insurance cover to better protect your interest.

It is important to keep documents that show the proof of ownership and the value of items insured, for example, purchase receipts, photographs of your valuable items, if available, may also be very helpful in the event of a claim.

# **Average Condition**

If the amount insured in your insurance policy is less than the rebuilding cost (i.e. under-insurance), you are deemed to be self-insuring the difference. The average condition will apply in the event of a claim.

## Example:

The total cost to rebuild a house is RM100,000, the sum insured is RM80,000 and the loss is RM5,000.

The average condition will be calculated as follows:

<u>Sum insured:</u> RM 80,000 x Loss: RM5,000 = RM4,000

Rebuilding cost: RM100,000

In the above example, we will only pay RM4,000 instead of RM5,000 for the loss. You have to bear the difference of RM1,000.

# **Payment of Premium**

- Premium must be paid and received by us within 60 days from the inception date of the cover, otherwise the
  cover is automatically cancelled and you will still be responsible to pay the proportion of premium for the 60

- Insist on a receipt for the premium paid to your insurance intermediary or us.
- Contact us if you have not received your policy after one month of purchase.

## Responsibility for Purchase of Insurance

If you are buying a property from a developer and the property is under the construction stage, the insurance of the property is the responsible of the developer, You only need to insure the property upon vacant possession from the developer.

For properties with strata titles such as flats, apartments, and condominiums, it is mandatory for the Management Corporation (MC) to purchase fire insurance for the whole building. The individual unit owner is required to pay to the MC his/her respective premium portion. At the same time, if the unit is purchased through a loan, the financier would normally require the unit owner (borrower) to obtain an insurance policy for the unit, leading to a situation of double insurance.

However, if you have obtained the loan from a financial institution under Bank Negara Malaysia's supervision, borrowers will not be required to buy another insurance policy for their units. Instead, these financial institutions will accept the insurance policy already purchased by the MC subject to certain terms and conditions. In this instance, you need to obtain the individual certificate of the master policy from the MC and present it to your financial institution as evidence of insurance. If your loan is not from a financial institution under the supervision of Bank Negara Malaysia, you can negotiate with the institution concerned.

## **Payment of Premium**

- Premium must be paid and received by us within 60 days from the inception date of the cover, otherwise the
  cover is automatically cancelled and you will still be responsible to pay the proportion of premium for the 60
  days.

# WHAT YOU SHOULD KNOW When Making A Claim

If your property suffers damage/loss

- You must notify us in writing with full details as soon as possible.
- You must take the necessary measures to mitigate further loss/worsening of the situation.
  - If temporary repairs are required to stop further damage, you should ensure that these are carried out immediately and the bills of work carried out should be kept as part of your claim. An example of temporary repair is to use a waterproof polyethylene/plastic sheet to cover damaged area to avoid further damage by rain water.

 If the repairs required are of a permanent nature, you should obtain estimates of the repairs required and send them to us for approval before commencing with repairs.

#### **Settlement of Claims**

The compensation amount depends on the basis of the cover:

- **Indemnity basis** will pay the cost of repairing the damaged property less the amount for wear, tear and depreciation; or
- Reinstatement value basis will pay the full cost of repairing the damaged property without any deductions being
  made for wear, tear or depreciation, provided that the sum covered is adequate to cover the total cost of
  reinstating the property.

In the absence of any special provision, the cover will be on indemnity basis. If you want to be covered on reinstatement basis, your policy should have the relevant clause attached to it.

Excesses, being the amount you have to bear before we indemnifies you, are applicable for certain perils, such as overflowing of water tanks, windstorm, earthquake and flood claims.

# Making a Claim

- You must submit your claim with all supporting information and documents to us. The more information you have on the damaged items (description of each item, the date of purchase and purchase price), the easier it will be for us to assess your claim.
- You should cooperate fully with the adjusters/investigators appointed by us to assess your claim.
